in celinanperalta

celinanperalta

Undergraduate student pursuing a Bachelor's in Computer Science seeking software engineering internship for Summer 2020. Driven to contribute value through quicklearning, resourcefulness, and a skill for time management.

#### Skills

#### **PROGRAMMING**

Java

Python

C/C++

#### **TECHNOLOGIES**

Git

Arduino

Excel

Linux

#### WEB DEVELOPMENT

PHP

MySQL

Flask HTML/CSS/JS

Node.is

### **Awards**

RidgeHacks - First Overall April Hack (Rebust) April 2019

Scholastic Art and Writing December 2015 Gold Key - Poetry

National Honor Society 2018

National Spanish Honor Society 2018

#### **Education**

Stevens Institute of Technology

Honors: Pinnacle Scholar

Activities/Clubs: oSTEM, Filipino Association at Stevens Tech (FAST)

Bergen County Academies

Academy for Technology and Computer Science

 $Selected\ Coursework:\ Data\ Structures,\ AP\ Computer\ Science\ (5);\ Linear\ Algebra\ \&\ Differential\ Equations;\ Processors\ I\ \&\ II;\ Advanced\ Processors\ I\ Advanced\ Processors\ II;\ Advanced\ Processors\ I\ Advanced\ Proces$ 

Topics in Computer Science; AP Calculus AB (5)

Cumulative GPA: 3.932 | SAT: 1510

## **Industry Experience**

 $Recon\,Industrial\,Controls\,Corporation\cdot Intern\,Englewood, NJ$ 

September 2018 - June 2019

August 2019 - May 2023

September 2015 - June 2019

Utilized Arduino photoelectric sensors to detect damage taken in video games by tracking red flashes and hues.

Designed C programs for Arduino WeMos robots used in undergraduate classes at Stevens Institute of Technology.

T.E.C.H. Camp · Student Teacher Bergen County Academies August 2018

· Developed lesson plans that incorporated mandated topics and included immersive activities for student engagement.

Taught introductory theoretical computer science topics such as boolean logic and number systems to middle school girls during a
week-long STEM camp.

BCA Web Apps · Intern Bergen County Academies Summer 2016 - September 2018

 Led development of a teacher proctoring registration application with automated reminder e-mails using a PHP/MySQL back-end stack along with the Sendgrid API.

· Maintained existing applications and implemented uniform designs in HTML and CSS.

## **Projects**

Clinical Outcomes Checker

September 2018 - May 2019

Updated and optimized a Gradle application for verifying clinical tests for cancer developed by researchers from Broad Institute
and Dr. Yujin Hoshida (Mount Sinai, UT Southwestern). Improved user experience of the application using the Materialize
framework and optimized analysis algorithm time.

Rebust April 2019

Rebust is an online rebus puzzle solver that runs on a Flask server with Clarifai and Datamuse. Rebust takes user input, a rebus, in
the form of image files and text, parses the input into phonetic strings, and outputs likely solutions in English to the original puzzle.
 Will likely continue development as a research project.

Miller-Urey Webcam Stream January 2019

 Created a Java-based webcam streamer application for use in the Recon Industrial Corp. makerspace's Miller-Urey experiment livestream.

TR-808 Drum Machine Emulator

Spring 2017

 Worked with a classmate to create a Java-based virtual drum machine modeled after the Roland TR-808 for our AP Computer Science class.

#### **Activities**

FIRST Robotics - Team 6203 Programming Team Captain

November 2015 - June 2018

Carried out responsibilities such as creating and teaching Java curriculum and organizing subteams during the season.

Mission Music - Co-President
Organized benefit concerts and in-school activities to raise money for music education for underprivileged kids.

September 2015 - June 2018

December 2017 - April 2018

HackBCA/Imagine - Logistics/Outreach Organizer

Created personalized blurbs for speaker invitations. Assisted with spreadsheets for logistics.

# Work Experience

Walgreens · Designated Hitter

Grand & Essex Supermarket · Cashier

November 2018 - Current

• Engage with hundreds of customers in an engaging, proactive, and friendly manner.

- Handle returns, exchanges, and assist with Western Union transactions.
- Assist customers at the photo center and create prints and custom photo products.

Aid pharmacy technicians in receiving and filling prescriptions during peak hours.

Answered customer inquiries and clarified details regarding charges.

• Scanned goods and collected payments and issued refunds, receipts, and change.

June 2017 - August 2017
